
Backing/Stabilizer

A quick guide to selecting the right backing for your job

Tearaway:

- Ideal for stable fabrics/garments or items that won't be machine-washed. Ex: purses and purse straps, dog collars, tote bags, etc.
- Cap backing is tear-away backing, cut into rolls

Cutaway:

- Used for less stable fabrics/garments like shirts, pants, hoodies, and other clothing.
- Designed to be machine-washed.

Topping:

- Water soluble topping is great for high pile fabrics like fleece or towels and is placed onto the garment's sewing area.
